**MEMORANDUM FOR: Deputy Director for Support**

**SUBJECT : Computer Services Support for the Support System Study**

**REFERENCE : Memorandum for the Deputy Director for Science and Technology, same subject, dated 24 September 1965**

1. I have reviewed the referenced memorandum and concur that the study now being conducted in the Support Directorate and the intended management information processing improvement program are important.

2. The Office of Computer Services appointed a Project Manager to guide this effort in OCS some months ago and has now formulated plans to allocate additional manpower as OCS becomes more actively involved in design and programming tasks. Concurrently, also, OCS is launching a two-and-a-half year program of conversion of its present hardware and software to new generation capabilities. These new capabilities will greatly strengthen the OCS ability to support an improved management information system for the Agency.

3. Let me assure you I am in full harmony with paragraph 5 of your memorandum (referenced) and I do intend to support this program with manpower, machines, and money as necessary to success.

  
**ALBERT D. WHEELON**  
Deputy Director  
for  
Science and Technology
